

# Home Contents – a helpful Valuation Guide

It can be quite difficult to accurately assess the combined value of your home contents for insurance purposes. For sure there will be items that you miss out or don't realise you need to include.

To help you get to a realistic figure we've created this Home Contents Valuation Guide which will help you by focusing on each item as you move through your home. Consider how much it would cost to replace the items if you were purchasing them new today.

When you've got your total, give us a call FREE on **0800 917 2274** and we'll be happy to quote for your home insurance.
